

MEDICAL TYRANNY

THE ASSAULT ON PATIENT AND PROVIDER FREEDOM IN THE AGE OF COVID

DR. SHEILA FUREY, M.D.

Join us at the Virginia Council for this remarkable and eye-opening presentation on what the Virginia Medical Freedom Alliance has termed “**the largest public health disaster in our lifetime.**”

Wednesday, September 14

12: 30 p.m. – 2 p.m.

**Park Lane Tavern in West Broad Village
2251 Old Brick Road, Glen Allen, VA 23060**

The Virginia Council is honored to welcome **Dr. Sheila Furey, M.D.**, as speaker for our September 14 meeting. A noted Richmond physician with over 25 years of clinical experience, Dr. Furey has led the fight in Virginia to advocate for patients and providers against the draconian, dangerous, freedom-killing and ineffective COVID policies imposed by government and the medical establishment.

Both doctors and patients have been harassed, threatened and censured. In the words of the Alliance, the long list of COVID lockdowns, experimental vaccines and mandates, and interference with individual rights have failed to “prevent wave after wave of COVID outbreaks and have not reduced the harm suffered by Virginians from COVID.”

Please be with us on Wednesday, September 14 for Dr. Furey’s timely and compelling presentation on the horrific government over-reach that has robbed so many of their freedom – and even perhaps their lives – and the latest efforts by the Alliance to restore freedom and sanity to the practice of medicine.

Seating is limited, so please RSVP by September 12th to TheVACouncil@protonmail.com

Before Dr. Furey’s presentation, you will be able if you wish to order from the delicious lunch menu provided by Park Lane. See you there!

The Virginia Council is dedicated to restoring and preserving the traditions, honor, respect, civility and prosperity of Virginia for ALL citizens of the Commonwealth. Join us as we work to protect Virginia’s history and heritage!
